

Recruitment for a JIA Workshop

Are you taking care of someone living with Juvenile Idiopathic Arthritis (JIA) between 6–12 years old?

Children between 6–12 years old can help us understand the impact of JIA on their lives by participating in this research, where we will be discussing **auto injector pens**

What will it involve?

A 4-hour workshop for children between 6–12 years old, including breaks.

When?

11am–3pm, Saturday 15th October 2022

Where?

Village Hotel Solihull, Dog Kennel Lane, Shirley Solihull, B90 4JG

What is the aim of the research?

The aim is to explore the experience of living with JIA from your child's perspective, so it can help us to understand what patient choice and patient preference look like for your child. Exploring their experience and their current needs will help us understand how support and care can be improved.

How will the research benefit the JIA community?

Currently, there is limited information available to understand the experience of children and young people living with JIA. This research will provide valuable insights about the impact of JIA on their quality of life, and ensure that the future of JIA care considers their unmet needs.

The workshop will consist of engaging and creative activities for children. These are designed to understand children's experiences with methotrexate auto-injector pens and the impact of JIA in their daily lives, and explore how they can be best supported.

Parents are welcome to stay for the icebreaker activity, but during the workshop we will ask you to move to the waiting area where refreshments will be available throughout.

Will my child be paid for their participation?

Your child's time is valuable, and we are offering them £40 per hour for participating in the workshop.

Breakfast pastries, a buffet lunch and refreshments will be provided. Please let us know if you or your child have any allergies or dietary requirements.

Reasonable pre-approved travel expenses will be reimbursed.

If at any time throughout the workshop you or your child wish to discontinue you are free to do so. You will still be paid for the time you have participated.

For more information or to take part, please email debbiew@nras.org.uk

Research partners

This research is funded by Nordic Pharma. Nordic Pharma worked in collaboration with The National Rheumatoid Arthritis Society (NRAS) and OPEN Health (an independent healthcare agency) to design the workshop materials and content. These organisations are facilitating recruitment of workshop participants and conducting the workshop on behalf of Nordic Pharma.

Data privacy

Your participation will be subject to local compliance and data privacy rules. You are free to opt out of participating at any time. Your responses will remain confidential and anonymous and will be collated with the responses of others for the purposes of data analysis.
